

HEAVY DUTY COOKING

V SERIES RANGE LINE

**BACK-OF-HOUSE DURABILITY.
FRONT-OF-HOUSE REFINEMENT.**

The V Series provides modularity from top to bottom and side to side, allowing for flexibility in your menu—today and tomorrow. Because of its unique design, the V Series enables you to bring artistry to the front of the house, while maintaining the durability and reliability you've come to expect from Vulcan.

V SERIES RANGE LINE

MODULARITY

With V Series ranges, it's easy to create the line-up you are looking for or to redesign your kitchen—and your menu—after the initial installation. Top sections of the same size, including open burners, hot tops, French tops, charbroilers and griddles, are interchangeable. The same goes for like-sized bases, from refrigerated bases and cabinets to standard, convection, and finishing ovens. You have the freedom to create your perfect work station.

Our standard front top ledge; telescoping to fit 1/9th size pans.
